Subject: Seq Search 09/695,451

Hi David,

I need to order a "length over score" nucleotide sequence search on nucleotides 727 through 1310 of SEQ ID NO: 1. I need the lower and upper limits to be 8 and 30, respectively, I need those hits complementary to the 70% level, and please transfer as many hits into the excel program as possible. If you can search the interference databases this way, please do.

Thanks,

Doug Schultz
